FLETCHER TECHNICAL COMMUNITY COLLEGE
Policy # 1.003

COMMON CANVAS HOME PAGE POLICY

Authority: Academic Affairs   Effective Date: 04/20/2021
                                                   Last Revision:

PURPOSE:
This policy is to establish a Canvas Home page framework meant to support the variability of both learning styles and subject matter.

POLICY STATEMENT:
This home page framework will establish a navigation norm or Fletcher Family style by which all courses on Canvas (of all contact methods including but not limited to online, hybrid, face to face, etc.) will be navigated by students. This will (1) help the establishment of clear pathways for each course in a unified format and (2) facilitate meaningful student-instructor interactions, and (3) aid the accessibility of communication with varied learner types. The goal of this policy is not overreaching as to dictate how a course should be taught or operated, and should in no way infringe on academic freedom.

Distribution: Distributed Electronically via College's Internet (adopted from the 2020-2021 Faculty Handbook)
