PURPOSE:

Fletcher Technical Community College has established minimum and maximum course loads for full-time students during the fall or spring semester, summer session, and intersession periods. These course loads are based on the type of semester (fall or spring semester, summer session, or intersession) and each student's academic standing.

POLICY STATEMENT:

The maximum course load allowed for students in good academic standing for a fall/spring semester is 20 credit hours. The maximum course load allowed for students in good academic standing for a summer semester is 11 credit hours. Any student wishing to enroll in 21 or more credit hours during a fall or spring semester or 12 or more credit hours in a summer semester must receive written permission of the department head or dean of the program or area in which the student is enrolled. Course load waiver forms are available in Enrollment Services, on Fletcher's website, and through the student's faculty advisor.
