**AGENDA**

I. **MORNING SESSION – 4 PDH or 4 CLE Credits**
   a. 8:30 a.m.: Speaker – Loulan J. Pitre; Attorney, Kelly Hart and Hallman
      i. Topic: **Historical Overview of Coastal Law in Louisiana.** A look into the complexities of some coastal law in Louisiana to better understand why the application of these laws can be difficult in such a dynamic and everchanging landscape.
   b. 9:30 a.m.: Speaker - Chip Kline; Executive Assistant to the Governor for Coastal Activities
      i. Topic: **The State of the Coast.** Where we have come from, where we are now, and where are going as a state in restoring and protecting our coast.
   c. 10:30 a.m.: Speaker – James L. Bradford, III; Attorney, Daigle Fisse and Kessenich
      i. Topic: **Navigating Coastal Law for Implementation of Hurricane Protection Projects.** Discussing the complexities of expropriation/appropriation as it relates to the implementation of hurricane protection projects, and how the application of these laws can have long-term effects on the costs of these projects.
   d. 11:30 a.m.: Speaker – David A. Peterson; General Counsel, CPRA
      i. Topic: **Navigating Coastal Law for Implementation of Restoration Projects.** Discussing the complexities of riparian law as it relates to the implementation of coastal restoration projects, and how the application of these laws can have an effect on the location, size, and costs of these projects.

II. **LUNCH SESSION – 1 Professional Ethics Credit**
   a. 12:30 p.m.: Speaker – Jennifer A. Fiore; Attorney, Dunlap Fiore
      i. Topic: **Ethical Considerations During Solicitations for Government Contracts.** A discussion on the ever-evolving Public Bid Law, and a look into what responsibilities owners, designers, and contractors have during these solicitations which can have major ethical and/or legal implications if not managed properly.

III. **AFTERNOON SESSION – 3 PDH or 4 CLE Credits**
   a. 1:30 p.m.: Speaker – Dwayne Bourgeois; Director, North Lafourche Levee District
      i. Topic: **National Flood Insurance Program Reform.** Recent changes in the NFIP have had detrimental effects on the Bayou Region. Our ability to efficiently implement hurricane protection and restoration projects will play an integral role in attempting to drive down some of these insurance costs.
   b. 2:30 p.m.: Speakers – Jerome “Zee” Zeringue, State Representative; Joe Orgeron, State Representative and Director of Restore or Retreat; Neal McMillin, Federal Policy Advisor, Governor’s Office of Coastal Activities; Scott Kirkpatrick, Government Relations, Coast Builders’ Coalition and Association of Levee Boards
      i. Topic: **Implications of Recent State Law, Federal Policy, and Potential Funding for Coastal Louisiana.** This panel discussion will highlight some major issues both on a local and federal level, as it relates to policy considerations and what the resulting impacts may be for the future of Coastal Louisiana. Included in this discussion will be a focus on how the transition toward renewable energy sources can be a major opportunity for Coastal Louisiana.

*Agenda subject to change.*
